Important notice

This presentation contains general information about Reliance Worldwide Corporation Limited’s activities at the date of presentation (29 August 2016). It is information given in summary form and does not purport to be complete.

The presentation is not an offer or invitation for subscription or purchase of or a recommendation of securities in any jurisdiction. It is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. These should be considered, with or without professional advice, when deciding if an investment is appropriate.

Information, including forecast information, in this presentation should not be considered as a recommendation in relation to holding, purchasing or selling shares, securities or other instruments in Reliance Worldwide Corporation Limited. Due care and attention has been used in the preparation of forecast information. However, actual results may vary from forecasts and any variation may be materially positive or negative. Forecasts by their very nature are subject to uncertainty and contingencies many of which are outside the control of Reliance Worldwide Corporation Limited. Past performance is not a reliable indication of future performance. Except as required by applicable regulations or laws, Reliance Worldwide Corporation Limited does not undertake any obligation to publicly update or review any forward looking statements whether as a result of new information or future events.

The sum totals throughout this presentation may not add exactly due to rounding differences.

The information in this presentation remains subject to change without notice. Circumstances may change and the contents of this presentation may become outdated as a result.

This presentation forms part of a package of information about Reliance Worldwide Corporation Limited. It should be read in conjunction with the Appendix 4E, 30 June 2016 Financial Report and the Results Announcement also released on 29 August 2016.
1. Highlights
2. Introduction to Reliance
3. Financial performance
4. Growth and outlook
5. Appendix
1. Highlights
FY2016 achievements

- Continued market penetration of SharkBite PTC fittings and accessories in the Americas
- Phase 1 of USA factory expansion completed, production of SharkBite PTC fittings commenced
- EvoPEX approval testing and trials completed
- Spain PEX facility commenced production, first sales made to Eastern Europe
- Successfully managed inventory levels in line with plan
- Ongoing focus on cost reductions and operational efficiencies
- Maintained strong health and safety track record
- Successfully listed on the ASX in April 2016
FY2016 financial highlights (12 months)

Pro forma net sales
$534.4 million
+18% growth vs PF FY2015

Pro forma EBITDA\(^1\)
$99.1 million
+25% growth vs PF FY2015

Pro forma NPAT\(^1\)
$52.1 million
+2% above Prospectus forecast

Strong net sales growth from Americas
+22% growth vs PF FY2015

Ongoing cost focus driving margin gains
+90bps (EBITDA margin) vs PF FY2015

Strong balance sheet
Pro forma net debt of $127.9 million (net leverage of 1.3x)

FY2016 results in line with Prospectus forecast

Note 1: EBITDA and NPAT are before significant items, refer to page 28 for statutory accounts which contain further details on significant items
Continuing Reliance’s long-term track record of strong growth

**RWC historical net sales growth, constant currency basis**

Note 1: Period from FY2006 to FY2016. Pro forma net sales calculated based on a constant currency basis of AUD/USD 0.7284, AUD/GBP of 0.4918, AUD/CAD of 0.9655, AUD/NZD of 1.0900 and AUD/EUR of 0.6562, being the average exchange rates in FY2016.
2. Introduction to Reliance
RWC is a leader in the design, manufacture and supply of water flow and control products and solutions for use in the “behind the wall” plumbing industry

- Leader in high growth brass push-to-connect (“PTC”) fittings category in key geographies
- Majority of sales to the defensive repair and renovation (“R&R”) end-market
- Vertically integrated, global manufacturer (11 facilities worldwide) with a strong culture of innovation, leading R&D and engineering capability
- Strong market positions across all key product lines and geographic regions
- Substantial barriers to entry and multiple avenues of future growth
- Senior management is a mix of long tenure RWC executives and new talent (>125 years aggregate experience with RWC)
- A$534.4 million of net sales¹ and A$99.1 million of pro forma EBITDA² in FY2016

### Net sales contribution (FY2016, percentages based on AUD)

- **By product category**
  - Fittings and pipe 65%
  - Control valves 19%
  - Thermostatic products 5%
  - Other 11%

- **By operating segments**
  - Americas 68%
  - Asia Pacific 22%
  - EMEA 10%

- **By sales channel**
  - Retail 44%
  - Wholesale 36%
  - OEM 18%
  - Export 2%

---

¹ Net sales after eliminating intercompany sales
² EBITDA before significant items, refer to page 28 for statutory accounts which contain further details on significant items
Market leader in North America and Australia across key product lines

### Commentary

- FY2016 results ahead of prospectus forecast
- Achieved an 18% increase in net sales vs PF FY2015
- Double digit growth driven by strong performance from Americas and supported by a lower AUD/USD
- Strong growth from Retail and Wholesale channels across Americas and Asia Pacific
- Ongoing production efficiencies and procurement savings have supported margin expansion
- Pro forma FY2016 interest and tax in line with prospectus forecast
- Pro forma FY2016 NPAT above prospectus forecast due to higher EBIT than forecast in the prospectus

Note: A reconciliation between pro forma and statutory results is included in the Appendix.

Note 1: Before significant items, refer to page 28 for statutory accounts which contain further details on significant items

n/a = Not available
Group EBITDA bridge (FY2015 – FY2016)
A$m

- Strong growth driven by continued market penetration of SharkBite and lower AUD/USD exchange rate
- Improvement in gross margin and lower opex (as % of sales) driven by cost reductions and operational efficiencies

### Financial commentary
- FY2016 results in line with prospectus forecast
- Achieved a 22% increase in net sales vs PF FY2015 driven by:
  - Continued market penetration of SharkBite
  - Strong demand from the Retail and Wholesale channels
  - Continued strong growth in sales to The Home Depot
  - Lower AUD/USD exchange rate
  - OEM sales flat due to softness in water heater sales

### Operational commentary
- The Wholesale team, supported by Marketing and Training, is growing the market through strategic account management initiatives
- Ongoing participation in trade shows, promotional campaigns and training programs have driven increased brand and product awareness
- Production of SharkBite PTC fittings at Cullman, Alabama commenced in May 2016
- Significant progress made with EvoPEX – approval testing and trials completed

<td>+ 10 bps</td>
</tr>
</tbody>
</table>

**Financial commentary**

- FY2016 results in line with prospectus forecast
- Achieved a 6% increase in net sales vs PF FY2015 driven by:
  - Strong performance from piping systems (Auspex and SharkBite)
  - Good growth in wholesale channel, partially offset by lower OEM sales
  - Lower sales to OEM channel

**Operational commentary**

- New electronic press successfully installed at Moorabbin, increasing production capacity
- Ongoing optimisation of SalesForce (CRM) to support sales and product management team
- FY2016 target savings from cost reductions achieved

Note 1: Segment net sales includes intercompany sales between segments
### Segment results – EMEA

<table>

**Financial commentary**

- Achieved a 17% increase in net sales vs PF FY2015 driven by:
  - Strong growth in Wholesale channel, underpinned by demand from all customers
  - Weaker AUD/GBP exchange rate
  - OEM sales flat, reflecting tougher market conditions in 2HFY2016
- FY2016 results slightly down compared to prospectus forecast

**Operational commentary**

- Production of PEXa from Spain facilities commenced in late FY2016
- First sales to Eastern Europe made
- First shipments have been made to RWC Australia

Commentary

- Strong balance sheet position
- Significant liquidity available to fund growth
- Lower net debt vs prospectus forecast due to:
  - Favourable cash flow variance
  - Lower IPO transaction costs
- Analysis vs PF FY2015 not meaningful as net debt at year end is reflective of post IPO debt structure
- Reduction in working capital in line with plan
4. Strategy and outlook
Overview of growth strategy

1. Continued penetration of brass PTC fittings and accessories in USA
2. Growth in market for thermostatic and other products
3. Expansion into new end-markets
4. Expansion into new geographic markets
5. New product development
6. Industry consolidation
Increased penetration of PTC fittings and accessories in the USA

- PTC is the fastest growing category in US residential plumbing fittings
  - Current penetration remains low at ~10%
  - PTC sales projected to grow at CAGR of approximately 12% between 2014–2017, outpacing growth in the wider plumbing fittings segment\(^1\)
  - PTC fittings penetration expected to drive PTC accessories growth
  - SharkBite well positioned to benefit with c.80% share of the brass PTC fittings category in the USA
- Drivers of RWC’s PTC fittings and accessories penetration:
  - Increasing product range with wholesale customers
  - Extension of PTC accessories range to meet flow-on demand from increased PTC fittings penetration and SharkBite brand success
  - Continued customer service and education

Note 1: Management estimates. On a sales volume basis
Note 2: Market position based on management estimates, on a unit sales volume basis for calendar year 2014
Expanding our USA retail distribution network

**Overview of Lowe’s agreement**

- Agreement covers Reliance’s SharkBite range of PTC fittings and accessories and related products, including PEX pipe, crimp fittings and clamps
- Sole Supplier arrangement – i.e. SharkBite range of PTC and related products will be the only products sold by Lowe’s in this category
- National rollout to Lowe’s 1,700+ stores in the USA to occur from late FY2017 and complete in FY2018
- Agreement not expected to have a material impact on Prospectus profit forecast for FY2017
- Distribution through The Home Depot and Lowe’s ensures SharkBite products are sold and marketed as widely as possible in the retail channel
- Expected to have positive impact on growth and market penetration of SharkBite products in the USA from late FY2017
Investing in growth in the USA – Cullman, Alabama expansion

Overview

- Highly automated manufacturing and distribution centre located in Cullman, Alabama
- Manufactures control valves and PEX pipe
- Recent major investment program to support SharkBite growth in the USA
- Phase 1 (2 production cells) expansion completed in FY2016
  - Total capital cost of A$18.2 million (below prospectus guidance)
  - Production of SharkBite PTC fittings has commenced from new facilities

Benefits of Cullman facility investment

- Increased brass PTC fittings production capacity to meet growing demand in USA and Canada
- More efficient management of inventory
- SharkBite now manufactured in both the USA and Australia
- Extra capacity can be brought online within 12 months with incremental additional capital outlay
Expansion into new end-markets through new product development

- Leveraging PTC technology to enter the USA residential new construction and commercial markets
- EvoPEX approval testing and trials completed
- SharkBite 2XL currently in the testing and commercialisation phase
- Preliminary market feedback has been positive and indicates that each new product range represents an attractive, labour saving solution

**US new residential construction market solution:**

- **EvoPEX fittings**

**US new commercial construction market solution:**

- **SharkBite 2XL fittings**

- Lower installed cost
- Made from engineered plastics and stainless steel materials
- Intended to win market share from more basic fittings (e.g. PEX barb, copper sweat)

- Larger diameter fitting better suited to commercial applications
- Lower installed cost
FY2017 outlook

Reliance confirms its pro forma FY2017 Prospectus profit forecast

Reliance confirms it is expected to consider an interim dividend in respect of the 6 months to 31 December 2016 and a final dividend in respect of the 6 months to 30 June 2017 in line with target dividend payout ratio (40-60% NPAT)

<table>
<thead>
<tr>
<th>June year end (A$m)</th>

</tr>
</tbody>
</table>

### Commentary
- Trading for the period in line with prospectus forecasts
- Statutory NPAT higher than prospectus forecast due largely to lower than expected transaction costs

Note 1: Before significant items, refer to page 28 for statutory accounts which contain further details on significant items

nmf = Not meaningful
