

**Reliance Worldwide Corporation Limited (ACN 610 855 877)
Corporate Governance Statement**

The Board of Directors is responsible for the overall corporate governance of Reliance Worldwide Corporation Limited (“the Company”) and its controlled entities (together “the Group”). The Board monitors the operational and financial position and performance of the Group and oversees its business strategy, including approving the strategic objectives, plans and budgets of the Group. The Board is committed to optimising performance and building sustainable value for shareholders. In conducting business with these objectives, the Board seeks to ensure that the Group is appropriately managed to protect and enhance shareholder interests and that the Group, its Directors, officers and personnel operate in an appropriate environment of corporate governance. Accordingly, the Board has created a framework for managing the Group, including adopting relevant internal controls, risk management processes and corporate governance policies and practices that it believes are appropriate for the Group’s business and that are designed to promote responsible management and conduct of the Group.

This Corporate Governance Statement outlines the key aspects of the Company’s governance framework and governance practices which are consistent with the 3rd edition of the Australian Securities Exchange (“ASX”) Corporate Governance Council’s Corporate Governance Principles and Recommendations (“ASX Recommendations”) which were applicable for the reporting period. The Board continually reviews the Company’s governance policies and practices to ensure that they remain appropriate in light of changes in corporate governance expectations and developments. As a result, many of the new suggestions contained in the 4th Edition of the ASX Recommendations are already embedded in the Company’s existing governance arrangements, as outlined in this Statement.

Details of key policies, practices and the charters for the Board and each of its Committees are available on the Company’s website at www.rwc.com.

This statement has been approved by the Board of Reliance Worldwide Corporation Limited and is current at 24 September 2020.

Board and management

The Board has adopted a written charter to provide a framework for its effective operation. The Board Charter sets out details of the Board’s composition, its role and responsibilities, the expected relationship and interaction between the Board and management, details of the responsibilities and functions expressly reserved to the Board and those authorities which are delegated by the Board to management and Board Committees. The Board Charter review in FY2020 sought to reflect the new recommendations in the 4th edition of the ASX Recommendations. A copy of the charter can be viewed on the Company’s website.

The Board’s role is to demonstrate leadership and:

- represent and serve the interests of shareholders by overseeing and appraising the Group’s strategies, policies and performance. This includes overseeing the financial and human resources the Group has in place to meet its strategic objectives and reviewing management performance;
- protect and optimise Group performance and build sustainable value for shareholders in accordance with any duties and obligations imposed on the Board by law and the Company’s Constitution and within a framework of prudent and effective controls that enable risk to be assessed and managed;
- set, review and monitor compliance with the Company’s values and governance framework (including establishing and observing high ethical standards);
- keep shareholders informed of the Group’s performance and major developments affecting its state of affairs;
- approve the Company’s values and Code of Conduct; and
- monitoring corporate culture, as required under the 4th edition of the ASX Recommendations.

The management function is delegated by the Board to the CEO (and to other officers to whom the management function is properly delegated by the CEO). A delegation of authority document has been approved by the Board. Management must supply the Board with information in a form, timeframe and quality that will enable the Board to discharge its duties effectively. Directors are entitled to request additional information at any time to assist in discharging their duties.

Appointment of Directors

The Company has a formal agreement in place with each Director setting out the terms of their appointment. Directors have rights of access to relevant Company documents, management and Company advisors to assist in the performance of their duties.

The process for selecting directors for appointment to the Board is overseen by the Nomination and Remuneration Committee. The Nomination and Remuneration Committee undertakes appropriate checks on any potential candidates before a person is appointed by the Board or put forward to shareholders as a candidate for election as a director. The Company provides shareholders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director. This information is provided in the notice for the Annual General Meeting. Once appointed, the Nomination and Remuneration Committee oversees processes to support a director’s induction and ongoing professional development and training opportunities. Ongoing professional development and training activities for directors may include visits to operational facilities, new product demonstrations and management presentations.

The Board collectively and each Director individually has the right to seek independent professional advice at the Company’s expense, subject to the approval of the Chairman or the Board as a whole.

Structure of the Board and Director independence

Current at 24 September 2020

The Board Charter sets out guidelines to assist in considering the independence of Directors. These guidelines are based on box 2.3 in the 4th edition of the ASX Recommendations. The Board will consider the materiality of any given relationship on a case-by-case basis. The Board reviews the independence of each Non-executive Director in light of information disclosed to it.

The Board considers that each Non-executive Director is independent in accordance with the definition adopted by the Board. Heath Sharp is not independent as he is an executive.

The performance of Key Management Personnel and other senior executives are assessed annually. The Group CEO's performance is assessed by the Board. Diversity drives the Company's ability to attract, retain, motivate and develop the best talent, create an engaged workforce, deliver the highest quality services to its customers and continue to grow the business. The Board adopted a Diversity Policy in order to address the representation of women in senior management positions and on the Board, and to actively facilitate a more diverse and representative management and leadership structure. The Company's overall vision for diversity incorporates several different factors, including gender, ethnicity, disability, age and educational experience. The Diversity Policy includes requirements for the Board to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the Company's progress in achieving them. The policy sets out the manner in which the Company's diversity and inclusion strategies will aim to achieve the objectives of the policy. The policy can be viewed on the Company's website at www.rwc.com.

The Board, through the Nomination and Remuneration Committee, continues to have a focus on achieving a balanced representation of women in senior roles and on the Board. This includes a process of active assessment and recruitment of female representation on the Board. During the past year, the Company advanced these objectives by increasing the representation of women within senior management and on the Board. The Company has submitted its Workplace Gender Equality Public Report for its Australian operations in compliance with the Workplace Gender Equality Act 2012 (Cth). A copy can be viewed at www.wgea.gov.au. The Group's total number of employees at 30 June 2020 was 2,257 of which 37% were female. Women are represented in professional and support roles across all departments. There are currently two female Board members representing one-third of Non-executive Directors. The Senior Leadership team comprises seven people reporting directly to the Group Chief Executive Officer and contains one female member. Business must be conducted honestly, fairly and ethically, applying best skills and judgment, and for the benefit of customers, employees, shareholders and the Company alike. People should be treated with dignity and respect as part of creating an inclusive and supportive workplace. The key objectives of the Code of Conduct are to:

- make Directors, senior executives and employees aware of the consequences if they breach the policy.

A copy of the Code of Conduct is available on the Company’s website. The key aspects of this code are reflected in policy handbooks provided to employees. Material breaches of the Code of Conduct are reported to the Board, as required under the 4th edition of the ASX Recommendations.

The Group has a defined set of core values referred to as SPIRIT: simplicity, passion, innovation, reliability and integrity. Our commitment to upholding the Group’s values is an enduring part of our culture. The Group maintains an absolute commitment to ensuring its people always act in a manner that is consistent with all relevant laws, rules and regulations governing the workplace. The Group is committed to paying the correct amount of tax in jurisdictions in which it operates.

External Auditor

KPMG was appointed as the Company’s external auditor in 2016. KPMG representatives are invited to all meetings of the Audit and Risk Committee and receive the papers for each meeting. A KPMG representative attends the Company’s Annual General Meeting and is available to answer questions from shareholders relevant to the conduct of the audit and the preparation and content of the auditor’s report.

The Company has an approved External Audit Policy which governs the appointment and assessment of the external auditor, auditor independence and rotation of the audit partner. Lead audit partner rotation by KPMG occurred following completion of the FY2019 audit. The Company has also adopted a policy on non-audit services which may be provided by the external auditor. The external auditor is prohibited from providing services which would create a real or perceived threat to audit independence. The Audit and Risk Committee monitors compliance with the policy with delegated authority for approving certain non-audit services up to specified limits granted to the Group Chief Financial Officer.

KPMG provides an independence declaration which is included in the Directors’ Report issued with each annual and half year financial report. The declaration states KPMG’s view on whether or not it has contravened auditor independence requirements set out in the *Corporations Act 2001* or any applicable professional code of conduct in relation to the audit. KPMG’s declaration for the year ended 30 June 2020 states its view that there have not been any such contraventions.

The Company has an obligation to keep the market fully informed of any information it becomes aware of concerning

the Company which may have a material effect on the price or value of the Company's securities, subject to certain exceptions. A copy of the Continuous Disclosure Policy is available on the Company's website.

A Disclosure Committee has been formed to oversee and monitor compliance with the Continuous Disclosure Policy. These processes include presentations by persons responsible for drafting these reports to the Board or Audit and Risk Committee and seeking external advice where appropriate. This Corporate Governance Statement is an example of a periodic report which is not audited or reviewed by the external auditor.

Communicating with Shareholders

The Company aims to communicate all important information relating to its shareholders in a timely manner. The Company also recognises that potential investors and other interested stakeholders may wish to obtain information about the Company from time to time. To achieve this, the Company communicates information through a range of forums and publications, including the Company's website, shareholder meetings, ASX announcements, annual reports and presentations. The Company lodges any new and substantive investor or analyst presentations with the ASX ahead of any presentation. The Company also has in place an investor relations program to facilitate two-way communication with investors. The process for communicating with shareholders and other parties is documented in the Continuous Disclosure Policy. Shareholders have an option to receive communications electronically by providing relevant details to the Company's share registry. The Board encourages the attendance and participation of shareholders at general meetings. Notices of meetings, including proposed resolutions, are issued in advance of meetings in accordance with legal requirements and allow for shareholders to send written questions to the Company's external auditor where applicable. All resolutions at Annual General Meetings are decided by a poll rather than a show of hands.

Recognising and managing risk

The Audit and Risk Committee assists the Board with and makes recommendations on matters relating to risk management responsibilities. The Committee's responsibilities with respect to risk management and compliance include:

- overseeing and advising the Board on high-level risk related matters, including risk tolerance in determining strategy, as well as management of key financial and non-financial risks, including new and emerging risks;
- reviewing and making recommendations to the Board in relation to the risk appetite within which the Board expects management to operate, and whether any changes should be made;
- evaluating the adequacy and effectiveness of the Group's identification and management of economic, environmental and social sustainability risks; and
- reviewing and making recommendations to the Board on the strategic direction, objectives and effectiveness of the Group's financial and operational risk management policies and the risk appetite that is appropriate for the Company.

The Company's risk management framework is reviewed at least annually by the Audit and Risk Committee to satisfy itself that the framework continues to be sound and that the Company is operating with due regard to the risk appetite set by the Board. The Audit and Risk Committee has undertaken a review of the risk management framework in FY2020.

The Company has adopted an enterprise risk management framework which covers financial and non-financial risks. The framework is overseen by a global management committee supported by regional committees. The role of these committees is to oversee and co-ordinate risk management activities. Management is responsible for the development and implementation of effective risk management and internal compliance and control systems based on the risk management policies adopted by the Board. This includes having robust processes in place to identify and then manage key business risks. Progress reports on the Enterprise Risk Framework are presented to the Audit and Risk Committee for consideration.

The Board receives a written declaration from the CEO and CFO prior to approving the Company's financial statements for a reporting period. The declaration includes statements from the CEO and the CFO that, in their opinion, the financial records have been properly maintained and the financial statements comply with appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively in all material respects.

Internal Audit

An internal audit function has been established to evaluate and provide recommendations to improve the effectiveness of the Company's risk management, internal control and governance processes. Internal audit functions are provided by internal resources with assistance from an independent externally appointed provider where considered appropriate. The head of the internal audit function has direct access to the Chairman of the Audit and Risk Committee and provides reports to the Committee on progress and achievements against an approved internal audit work program.

Economic, environmental and social sustainability risks

RWC issued its first social impact report in February 2020 ("Social Impact Report 2019"). The report can be viewed on the Company's website.

Running our business responsibly is vital to the Company's long-term future as decisions made can have important consequences for the economy, society and the environment. The Social Impact Report 2019 provides information on our approach to sustainability, identifies our material topics and how they are currently managed, our achievements and areas for improvement. The topics material to the Company are categorised into four groups: products, people, community & environment and governance.

Economic sustainability risks

The Group is exposed to economic sustainability risks associated with its business activities. Details of key economic sustainability risks and how these are managed are discussed in the Directors' Report for the year ended 30 June 2020.

Environmental and social sustainability risks

The Group has exposure to environmental and social sustainability risks. Manufacturing operations primarily involve brass forging and machining, PEX extrusion, plastic moulding and product assembly. The manufacture of the Group's products involves the use of heavy machinery and hazardous processes. There may be an incident or accident at a facility that results in serious injury or damage to property, which in turn may result in a penalty being imposed by a regulatory authority, an interruption of manufacturing operations, a worker's compensation claim, a work health and safety claim or a claim for damages. Such claims or events may not be covered by insurance or may exceed insured limits. They may also adversely impact business reputation. Any such occurrences could therefore adversely impact the Group's operations and profitability. The Group seeks to manage and minimise the impact of these risks through health and safety initiatives along with operational and product initiatives.

In terms of health and safety initiatives, the Group is committed to providing a safe and healthy workplace for all our employees and contractors. We aim for zero harm across the group. A robust health and safety management system is maintained which assists in the identification of potential issues and hazards and in the development of strategies and initiatives to mitigate the risk of harm. The Group's safety performance remains the highest priority and is regularly reviewed by management and the Board. Our Group Operations team has a clear remit on safety and we have dedicated safety personnel in each division. During FY2020 we increased safety leadership training, implemented near-miss and hazard reporting (an important leading indicator), developed higher standards for incident investigation and communication and established employee safety committees. We continue to work to improve our health and safety activities and our record in this area.

Historically, the environmental impact of our processes has been minimal and the Company believes it meets current environmental standards in all material respects.

The Group's operations and properties are subject to environmental protection laws and regulations, including those regulating air emissions, water discharges, waste management and disposal and workplace safety. If the Group were to breach or otherwise fail to comply with any such law or regulation, the cost of curing a breach or resolving associated enforcement actions initiated by government authorities could be substantial and may materially reduce the Group's profit in a given reporting period. The Group adopts appropriate risk management and internal control processes to minimise the risk of breaching these laws and regulations. The Company seeks to operate its business in compliance with all regulatory and government requirements including environmental, health and safety, workplace and related regulations. The Group carries out required procedures with the aim of ensuring compliance with all applicable safety and product performance regulations. Please refer to the Social Impact Report 2019 for details of operational initiatives undertaken in recent years.

From a product perspective, the Group continues to develop and refine products that aim to mitigate potential water damage and wasted water, improve safety, wellbeing and energy efficiency (thereby reducing energy costs) and enable more effective and efficient installation and product operation. Many of our products have a sustainability objective at their heart. These include solutions that optimise energy consumption and innovations which make the use of water more efficient and less wasteful. We continue to develop technologies which seek to make the lives of our end users easier while at the same time making a positive impact on the environment. The Group invests extensively in research and development at facilities in Australia, the UK and the USA to achieve these aims.

The Group also actively participates in local communities and aims to support social issues and causes identified by its employees. Community involvement occurs through corporate donations, sponsorships, fund raising and employee participation.

Further information on the Group's governance, operations, products, approach to social responsibility and involvement in communal activities can be found in the Social Impact Report 2019 which can be viewed on the Company's website.

Remuneration

Details of the Company's remuneration framework, key policies and practices, Non-executive Director remuneration, senior executive remuneration and the employment terms of executive Key Management Personnel are discussed in the annual Remuneration Report. Details of the Company's long term incentive plan, which provides for equity based remuneration, are also set out in the Remuneration Report.

Dealing in Securities

The Securities Dealing Policy is intended to explain the types of conduct in relation to dealings in securities that are prohibited by law and establish procedures for the buying and selling of securities that protect the Company, Directors and employees against the misuse of unpublished information, which could materially affect the price or value of the Company's securities. The policy sets out when and how dealing in the Company's securities may or may not occur. Hedging of equity received by senior executives under the long term incentive plan is not permitted prior to vesting. A copy of the policy is available on the Company's web
